

History Flight Path - Year 3 - Scavengers and Settlers

Subject: History	Unit: Scavengers and Settlers	Year: 3	Term: 2	Key Vocabulary (max. 10) <i>*indicates etymological link</i>	
Big Question: Why do scavengers settle?				BCE – before the common era CE – the common era *Chronology – the order events happened *Archaeology – studying human history by digging up evidence	*Prehistory – the period before recorded history Sources – varying evidence from the past *Neolithic - the first recorded history of mankind *Artefacts – an object made by a human of historical interest
National Curriculum objectives covered: Changes in Britain from the Stone Age to the Iron Age.					
Key knowledge: To know that prehistory was a very long time ago and the beginning of mankind The Stone age was in neolithic time. Life in the stone age was the beginning of settlements and moving away from hunter gathering. The Bronze age was 5000 years ago. Life in the bronze age enabled the production of tools and establishing farming. The Iron age was 3000 years ago. The discovery of Iron brought with it a new material and the beginning of industry and wider trade. Coinage was created.					Concepts: Settlements Trade
Key dates / chronological knowledge Neolithic – Stone Age: 2.6 million years ago - 3300BCE Bronze age – 3300BCE – 1200BCE Iron Age – 1200BCE – 600BCE Avebury stone circle built – 2850 – 2200 BCE Stonehenge built – 3000BCE – 2000BCE					

History Flight Path - Year 3

Lesson 1	Lesson 2	Lesson 3	Lesson 4	Lesson 5	Lesson 6
LQ: When was the stone age?	LQ: What was life like in the stone age?	LQ: What was life like in the bronze age?	LQ What changed between the stone age and the bronze age?	LQ What was life like in the iron age?	LQ How did trade change the Iron Age?
I know that:					
Pre-history was a long time ago and was the beginning of history of mankind	Archaeological evidence can tell me about the stone age	Archaeological evidence can be used to investigate the Bronze Age	How bronze came to Britain. At least three ways life changed because of bronze	Iron age settlements looked different from the neolithic settlements	Trade increased during the iron age and this resulted in coinage being made
I Can:					
Find BC (BCE) and AD (CE) on a timeline and explain why history is split in two sections.	Use and explain evidence to make observations about Stone Age houses including archaeological evidence	Use and explain evidence about the bronze age including artefacts as a source to deduce what life was like	Identify similarities and differences between the stone age and bronze	Explain the similarities and difference between the neolithic settlements and those in the iron age	Give examples of the items traded during the iron age
