

Swindon Autism Support Service ASC Training

Supporting Children's Social Communication: From the pram to the prom

led by Dr Sarita Austin, Specialist Speech and Language Therapist

This course is for professionals and supporters/carers working alongside children and young people who find communicating in social situations challenging.

Attendees will be offered ideas on how to better support children during their early years (from the time they're in the pram) through primary school. We'll also give suggestions around supporting young people in secondary school and post-secondary school (the time of their proms and beyond) in the area of social communication.

Dr Sarita Austin is an experienced Speech and Language Therapist, a member of The Royal College of Speech and Language Therapists here in the UK, a certified Speech-Language Pathologist in the United States, and a contributor to The Encyclopedia of Autism Spectrum Disorders. She has worked for over two decades with children with ASC, their families, and their therapeutic and education teams in a variety of roles including autism researcher, university instructor, clinical supervisor, speech and language services manager, and workshop facilitator
